Фонд “Подари Жизнь” был создан в ноябре 2006 г. двумя русскими актрисами Диной Корзун и Чулпан Хаматовой для борьбы с онкологическими заболеваниями у детей. Фонд одновременно заботится о 500 детей в разных клиниках России, оказывая поддержку более чем 2000 детей в год. “Подари жизнь” помогает врачам лечить детей, у которых рак, оказывает психологическую и социальную поддержку этим детям и их родителям, развивает программы донорства крови и больничного волонтерства, оказывает паллиативную помощь.

В России ежегодно заболевает раком около 5000 детей. Только 2500 из них выздоравливает, а 2500 умирает, в том числе, 1500 детей гибнут из-за проблем, связанных с недостатком средств.

С вашей помощью галерея Art Sensus сделает благотворительный взнос в поддержку работы Фонда – 10 000 фунтов. Эти средства помогут оплатить один месяц работы комплексной психологической службы Федерального центра детской гематологии, созданной для оказания помощи детям и их родителям. Также можно будет оплатить одному ребенку проведение в течение месяца спектопометрии, необходимой для лучевой терапии, либо курс магнитно-резонансной терапии, либо поиск донора костного мозга в Фонде Морша в Германии.

Спасибо за вашу поддержку!

Podari Zhizn (Gift of Life)

Launched in November 2006 by two Russian actresses Dina Korzun and Chulpan Khamatova, the charity Podari Zhizn now looks after 500 children in different clinics averaging 2000 children per year. Podari Zhizn helps with haematology (blood cancer), central nervous system oncology (brain cancer), psychological and social support, donorship of blood and its components, development of volunteer network and palliative help.

There are on average 5,000 children's cancer cases in Russia per year. 2,500 recover, 2,500 die. Of the 2,500 deaths, 1,500 die because of a lack of money or medical shortage.

With your support, Art Sensus will be donating £10,000 to this necessary cause. This will cover a monthly budget of a comprehensive psychological support program established at the Federal centre of child haematology (psychological support rendered to children and their parents). It will also cover a month-long radiation treatment planning, or a month-long magnetic resonance therapy treatment course or a search for a bone marrow donor via Stefan Morsch Foundation (Germany).

Thank you for your time and support.
